EDUCATION

The University of Texas at Dallas

Bachelor of Science: Computer Science — GPA : 3.63

Richardson, TX

Expected May 2019

SKILLS & TECHNOLOGIES

- **Programming:** C++, Java, Bash, Assembly
- **Front-End:** HTML5, CSS3, JavaScript, Bootstrap/SUI, React.js, jQuery, SASS
- **Back-End:** Node.JS, Express, MongoDB, Git/Github, Heroku, NPM
- **Familiar:** Agile Development, Web Design, Responsive Design, RESTful Practices, Version Control, APIs

PROJECTS

GroupUpUTD

Node.js, Express, MongoDB, jQuery, Bootstrap

<http://groupuputd.herokuapp.com/>

- Created and deployed an event posting website targeting newer UTDallas students to find fun activities on campus
- Designed and developed a smooth, beautiful, and responsive UI and connected that to a fully functional back-end
- Utilized RESTful Routing practices, HTTP requests, database interactions, and user account related material

WhatToEat

Node.js, Express, jQuery, Semantic UI, Yelp-Fusion API

<http://whattoeat-bt.herokuapp.com/>

- Developed a web application for indecisive foodies, which generates random foods and restaurants based on location
- Single page application made possible through learning AJAX and authenticating the Yelp-Fusion API

Mini-Overbuff

Node.js, Express, MongoDB, jQuery, Semantic UI, OW-API

<http://mini-overbuff.herokuapp.com/>

- Crafted a simple web application for Competitive Overwatch players to retrieve competitive stats and rankings
- Player stats extracted from an Overwatch API; Leaderboards displayed after being sorted within a local database

EXPERIENCE

UTD CS Mentor Program

Student Tutor

Richardson, TX

January 2017 - May 2017

- Assisted Computer Science students with programming assignments, calculus, and discrete mathematics
- Strengthened leadership, social, communication, and critical thinking skills with students

UTD Freshmen ECS Advising Assistant

Student Advising Intern

Richardson, TX

August 2016 - December 2016

- Assisted Advisors with informing first-year students about classes, credits, resources, and college life
- Improved communication and leadership skills in order to lead a class of thirty new students through class activities

Label Solutions Incorporated

Digital Art Software Intern

Garland, TX

June 2014 - July 2014

- Underwent an apprenticeship with a working Photoshop/Illustrator Professional with a focus on logo designs
- Gained unique digital art & design skills, a new form of critical thinking, and business management

ACTIVITIES

- **UTDMakerSpace - Treasurer:** Managed the organizations's financial reimbursement of food and equipments
- **UTDesign - Hardware Coordinator:** Monitored and managed equipment and finances for events and workshops
- **HackDFW - Web Developer:** Primary Front-End Developer for HackDFW's Proof of Hack landing page
- **Static Web Workshop - Instructor:** Taught workshops for basic front-end development to get students started
- **HackUTD - Volunteer:** Assisted HackUTD Staff members with running the university hackathon smoothly
