EDUCATION

The University of Texas at Dallas — Richardson, TX

Bachelor of Science: Computer Science — GPA : 3.63 — *Expected May 2019*

SKILLS & TECHNOLOGIES

- **Programming**: C++, Java, Bash
- **Front-End**: HTML, CSS, JavaScript, Bootstrap/SUI/Skeleton, jQuery, SASS, Jade
- **Back-End**: Node.js, Express, MongoDB, Passport.js, Heroku, NPM
- **Development**: Agile Development, Responsive Design, REST, Git, APIs

PROJECTS

Firewatch Portfolio

HTML, CSS, JavaScript, Jade, SASS, Skeleton, jQuery — *http://bryan-tran.com/*

- Successfully imitated the original Firewatch parallaxing effect and crafted the site into a personal portfolio
- Showcases all deployed projects, websites created for organizations, and six other portfolios that I have developed

GroupUpUTD

Node.js, Express, MongoDB, jQuery, Bootstrap — *http://groupuputd.herokuapp.com/*

- Created and deployed an event posting website targeting newer UTDallas students to find fun activities on campus
- Designed and developed a smooth, beautiful, and responsive UI and connected that to a fully functional back-end

WhatToEat

Node.js, Express, jQuery, Semantic UI, Yelp-Fusion API — *http://whattoeat-bt.herokuapp.com/*

- Developed a web application for indecisive foodies, which generates random foods and restaurants based on location
- Single page application made possible through implementing AJAX calls and authenticating the Yelp-Fusion API

Mini-Overbuff

Node.js, Express, MongoDB, jQuery, Semantic UI, OW-API — *http://mini-overbuff.herokuapp.com/*

- Crafted a simple web application for Competitive Overwatch players to retrieve competitive stats and rankings
- Player stats extracted from an Overwatch API; Leaderboards displayed after being sorted within a local database

EXPERIENCE

Computer Science Mentorship Program — Richardson, TX

Peer Satellite Tutor — *January 2017 - May 2017*

- Assisted Computer Science students with programming assignments, calculus, and discrete mathematics
- Strengthened leadership, social, communication, and critical thinking skills with students

UTDallas Engineering Advising — Richardson, TX

Student Advising Intern — *August 2016 - December 2016*

- Assisted Advisors with informing first-year students about classes, credits, resources, and college life
- Improved communication and leadership skills in order to successfully lead a class of fourty three students

Label Solutions Incorporated — Garland, TX

Digital Art Software Intern — *June 2014 - July 2014*

- Developed and polished sticker logos through Photoshop and Illustrator with a working professional
- Gained unique digital art & design skills, a new form of critical thinking, and business management

ACTIVITIES

- **UTDMakerSpace - Web Developer**: Developed UI components and sites for the organization when needed
- **HackDFW - Web Developer**: Primary Front-End Developer for HackDFW's Proof of Hack landing page
- **Community Web Developer**: Assisted web communities by creating useful plugins and libraries
- **Static Web Workshop - Instructor**: Taught workshops for basic front-end development to get students started
- **UTDMakerSpace - Treasurer**: Managed the organizations's financial reimbursement of food and equipments
- **UTDesign - Hardware Coordinator**: Monitored and managed equipment and finances for events and workshops
